Wipe clean

Its plastic construction makes it easier to clean with wipes, conveniently ready for the next meal.

Booster seats occupy a lot of space; they're heavy, and not easy to carry around. You need one shoulder to carry your diaper bag, and another to carry the "supposedly" portable booster seat.

The Flat Pack Seat has been designed to fit in your diaper bag, without sacrificing security or comfort. A simple 2 step easy folding and you'll have a booster seat that is barely 3,2cm thick. This allows you to place it in your diaper bag, along with everything else you need when going out to restaurants, to the park, on strolls, etc.

Side panels give it added security, and make sure the Flat Pack meets the latest European standards: EN16120.

Easy to clean. To put in the dishwasher, first remove the backrest by unfastening the Velcro straps. The Flat Pack will always be the most hygienic option because restaurant booster seats are seldom cleaned after each use.

You can also use it at home. It will occupy an insignificant space in your home compared to those large and bulky high chairs.

- Age: from 6 months
- The Milky Way model comes with a new and more cushiony backrest, made of thermoforming material with a high-end technical design
- Dimensions: 30 x 23 x 3.2 cm (folded) – 30 x 23 x 12 cm (unfolded)
- Weight: 1.2 kg
- Meets European Standard: EN16120
- Dishwasher safe
